

# Welcome to Carnegie Mellon Data Science Club's Mentorship Program!

# About the Program

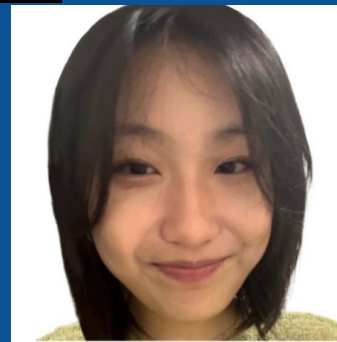

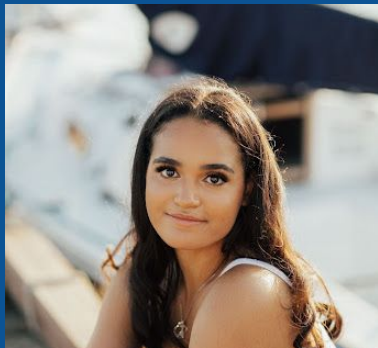

---

- Allow underclassmen to seek advice from upperclassmen and board members about anything DS Related!
- Social/advice-based (e.g. having someone to talk to for course planning, career advice, and related)
- Project-based (e.g. work towards creating a final product using data science knowledge and potentially participating in challenges)
- Existing datasets can be downloaded from sites like Kaggle as jumping-off points or mentees can bring their own ideas to the table!
- Mentors and mentees decide together how often/when to meet.

# This year's mentors!

---

(From top left to bottom right) AI, Suha, DK, Noe, Clement, Grace

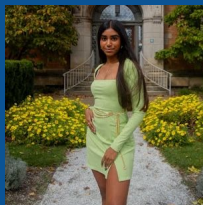

# Mentorship Groups

## — AI

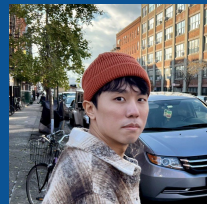

- Oscar Zheng
- Bo Xie
- Mayank Iyer
- Sohumi Walavalkar
- Alice Le
- Mayank Nandwani

## Suha

- Jasmine Shi
- Jeslyn Koay
- Veronica Pimenova
- Zaina Saif
- Claer Jestin

## DK

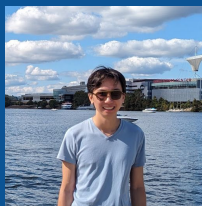

- Abhishek Hemlani
- Limiao Wang
- John Turner-Smith
- Justin Ku
- Befeker Assefa

## Noe

- Nicole Sorensen
- Troy Wang
- Ellyse Lai
- Haochen Yang
- Arnav Pallem
- Allison Dayton

## Clement

- Oliver Yun
- Ivy Li
- Anya Bindra
- Best Pantusen
- Andy Lee

## Grace

- Jackson Chen
- Abhishek Kommineni
- Justin Wu
- Stephanie Yu
- Zhiqi Lin

# Find your mentor and start introductions!

---

## MENTORS

- Name, Year, Major
- Favorite Applications of Data Science
- Favorite CMU Class
- Other CMU club involvements
- A Hobby You Enjoy

## MENTEES

- Name, Year, Major
- Current Classes
- Why the mentorship program?
- A Hobby You Enjoy

# In mentor-mentee cohorts: Data Science Jeopardy!

# Create mentorship group chats and mingle!
